INTRODUCTION.

The preparation of the present Directory of the grape growers, wine makers, and distillers of California, and of the grape growers and wine makers of the Eastern States, was undertaken by the Board of State Viticultural Commissioners with a view of securing the most complete statistics yet obtained regarding the viticultural industry. The old Directory of 1888 had become obsolete, principally because of the rapid planting of raisin grapes in the San Joaquin Valley. The old Directory was also very incomplete, inasmuch as nothing but the names of the growers was given. The present Directory is as accurate as it could be made with the time at hand.

The compilation of the California Directory was intrusted to the Commissioners for the seven Viticultural Districts, and each Commissioner engaged special canvassers to collect the statistics. The raisin grape plantings of the winter of 1890-91 are not included.

The Distillers' Directory was obtained from the Internal Revenue Collectors of the First and Fourth Districts, to whom the Commission is under obligations for their coöperation.

The Eastern Directory was obtained solely by correspondence by the Secretary, and while not by any means complete, it contains nearly three thousand names of the leading eastern producers, and is a start on a more perfect list.

The recapitulation for the entire State of California is annexed.

WINFIELD SCOTT,
Secretary Board of State Viticultural Commissioners.
