PROBATE COURTS:

Probate jurisdiction is exercised by the superior

courts.

COURT OF CONCILIATION:

This court is a department of the superior court to which are referred cases involving domestic relations when the interests of a minor child are involved.

MUNICIPAL COURTS:

Each city, or city and county, which has a population of over 40,000 may have a municipal court. The following cities now have municipal courts: San Francisco, Los Angeles, Long Beach and San Diego.

Jurisdiction.—Each municipal court has original jurisdiction of all civil cases and actions arising within the city or city and county in which the court is established: (a) all cases at law in which the demand, exclusive of interest, or the value of the property in controversy, is \$2,000 or less except cases which involve the legality of a tax, impost or fine; (b) in actions for dissolution of a partnership where assets do not exceed \$2,000; in interpleader where amount involved does not exceed \$2,000; (c) to cancel or rescind a contract in connection with an action to recover not to exceed \$2,000 or to revise a contract in an action of which the court has jurisdiction; (d) all actions of forcible entry or forcible or unlawful detainer, where the rental value is \$200 or less per month and where the whole damages claimed are \$2,000 or less; (e) all actions to enforce and foreclose liens on personal property where the amount of such liens is \$2,000 or less; (f) to foreclose lien on personal property of \$2,000 or less; (g) all actions to enforce and foreclose liens of mechanics, materialmen, artisans and laborers, where the amount of such lien is \$2,000 or less, provided that where an action to enforce and foreclose such a lien is pending in the superior court and affects property which is also affected by a similar action in the municipal court in the same county, or where the total amount of such liens against the same property aggregates an amount in excess of \$2,000, the municipal court upon motion must order such action to be transferred to the proper superior court; (h) to issue temporary restraining orders, take accounts and appoint receivers where necessary to preserve rights of a party to an action of which the court has jurisdiction; to charge the interest of a debtor partner with payment or an unsatisfied judgment.

Each municipal court has original jurisdiction of all cases specified above arising within the county wherein the court is established but outside the boundaries of any city therein wherein a municipal court is established.

Each municipal court has original jurisdiction of all cases specified in subdivisions (a) and (c) above arising outside the county or city and county in which the court is established (except cases arising within a city or city and county wherein another municipal court is established) in which all proper defendants who are residents of this state reside, and any property involved is located, within the county or city and county wherein such municipal court is established; and that each municipal court is established; and that each municipal court has original jurisdiction of all cases specified in subdivisions (a) and (c) above in which a proper defendant therein resides or has a regular place of business, and any property involved is located, within the county or city and county in which such court is established and in which the demand exclusive of interest or the value of the property or the amount of liens on personal property involved does not exceed \$300.

Each municipal court has jurisdiction of all cases in equity when pleaded as defensive matter or by way of cross-complaint in any case properly pending in such municipal court.

In cities or cities and counties wherein a municipal court is established and wherein an inferior court has been established and its jurisdiction determined as provided by law, such municipal court has concurrent jurisdiction with such inferior court to the extent of its jurisdiction.

Each municipal court has original jurisdiction concurrent with that of justice's or other inferior courts in the county in which such municipal court is established, of all civil cases in which such other courts are given jurisdiction, except civil cases of which such other courts are given exclusive jurisdiction, and except any cases cognizable in such other courts sitting as small claims courts. (1931, c. 834).

JUSTICE COURTS:

"Justices' Courts of Class A" are those located in cities, towns or judicial townships having a

population of thirty thousand or more. "Justices' Courts of Class B" are those located in cities, towns or judicial townships having less than thirty thousand population.

Jurisdiction.—Class A courts have original jurisdiction in all cases at law in which the demand, exclusive of interest, or the value of the property in controversy, amounts to \$1,000 or less, except cases involving title or possession of real property or legality of a tax assessment or fine; of all actions of forcible or unlawful entry or detainer where the rental value is \$100 or less per month, and where the whole amount of damages claimed is \$1,000 or less; in all cases to enforce and foreclose liens on personal property where the amount of such liens or the value of the property is \$1,000 or less; and in cases in equity, when pleaded as defensive matter or by way of cross complaint in any case at law commencing in said courts of which they have jurisdiction to charge the interest of a debtor partner for an unsatisfied judgment debt; and a limited right to appoint receivers. Class B courts have original jurisdiction in all cases at law in which the demand, exclusive of interest or the value of the property in controversy, amounts to \$300 or less, except cases which involve title of possession of real property or legality of a tax or fine; of all actions of forcible or unlawful entry or detainer where the rental value is \$75 or less per month, and where the whole amount of damages claimed is \$300 or less; in all cases to enforce and foreclose liens on personal property where the amount of such liens or the value of the property is \$300 or less; and a limited right to charge the interest of a debtor partner for an unsatisfied judgment.

Territorial jurisdiction is limited to the township where the court is held but its process extends to any part of the state.

SMALL CLAIMS COURTS:

All justices of the peace and municipal judges in cities where there is no inferior court exercise jurisdiction sitting as small claims courts. The jurisdiction of the court is confined to cases for the recovery of money only where the amount does not exceed \$50 and the defendant named is a resident of the township or city and county in which the action is to be maintained or has contracted to perform an obligation there.

Actions are commenced, heard and determined in this court whenever any person appears before any justice of the peace, or municipal judge, and executes an affidavit stating the amount claimed and the residence of the defendant.

No claim may be filed or prosecuted in the small claims court by the assignee of such claim and no attorney-at-law or other person than the plaintiff and defendant may take any part in the filing or the prosecution or defense of litigation in the court. No formal pleadings other than the claim and notice are necessary. No attachment or garnishment may issue from the court, but execution may issue in the manner prescribed in Title IX of Part 2 C. C. P.

Judgment is conclusive on plaintiff but defendant may appeal to superior court. (C. C. P. 117).

POLICE COURTS:

These are established in incorporated cities and towns.

JUVENILE COURTS:

The juvenile court has jurisdiction over criminal cases involving persons under 21 years of age.

SCHEDULE OF MINIMUM FEES AND CHARGES

(Does not include Court Costs)

Approved and Adopted at Annual Meeting of the Oregon State Bar, September 5, 1946

Introduction:

The following is a schedule of minimum fees and charges. The committee endeavored to fix the minimum low enough so that no lawyer could afford to handle the simplest kind of case for less in justice to himself and therefore if the schedule is used to arrive at average or minimum charges

the lawyer so using it will be unfair to himself and the Bar.

After many of the items you will find the note "plus per diem". In the opinion of the committee the only method by which the lawyer can arrive at a fair charge in many matters is by basing his charge on the amount of time he spends

thereon. The authorities are generally agreed that a lawyer can ordinarily figure on charging for five hours a day, five days a week. If each lawyer will add the average monthly overhead to the salary he believes he should receive and divides this amount by 100 he can arrive at a fair basis of hourly charge.

To each of the fees listed in the schedule should be added a per diem charge for time spent in court in contested trials or for time (in excess of amount usually spent in simple cases) consumed in preparation and briefing.
