### SAN FRANCISCO FIRE DEPARTMENT.

Office Fire Department, City Hall.

D. T. Sullivan, Chief. J. Dougherty, 1st Assistant  
Office Fire Alarm Department, 9 Brenham Place, Clay, near Kearny.

#### Pacific Auxiliary Fire Alarm.

Office, 216 Bush, near Sansome.

A (\*) placed after the names of streets in above list of fire alarm boxes indicates the location of boxes connected with the Pacific Auxiliary System, which connects directly with Fire Department, and gives the alarm instantly, without loss of time.

Full directions on every box where put up.

#### Fire Alarm Signal Stations.

Wm. R. Hewitt, Supt., 9 Brenham Place, near Clay and Kearny.

Keys for signal boxes are located in vicinity of boxes.

#### DIRECTIONS TO KEY-HOLDERS.

Upon the discovery of a fire near your Signal Box, pull down the hook once and let go; then wait a few minutes, and if you hear no alarm from the large bells or gongs, pull again; if you still hear no alarm, go to the next nearest box and give the alarm from that. If no light shows up, wait at the box and direct the firemen to the fire. Never signal for a fire seen at a distance. Be sure your box is locked before leaving it. DO NOT GIVE AN ALARM FOR A BURNING CHIMNEY. Give an alarm for no cause whatever except an actual fire.

Second, third and general Alarms will be turned in only by the order of the Chief Engineer or his assistants.

Riot Alarm: Ten strokes upon bells and gongs, repeated five times, is the signal for Police to assemble at City Hall.

The Japan Ocean current, 600 miles wide and 3000 feet deep, sweeps around from Japan via the Aleutian Isles. This warm current of 50 degrees tempers the trade winds that blow from May to January, and reduce the heat of the summer and cold of winter. Heavy clothes are always necessary for comfort in San Francisco.

## SAN FRANCISCO WEATHER.

Wear warm clothing in San Francisco, The winds are harsh and penetrating—the nights are cool, and strangers are subject to colds. Avoid these by dressing warmly. San Franciscans wear thick clothing the year round. Restaurant charges are moderate. Hotels are good, and prices, varying according to service, are reasonable.

### Kindergarten Data.

341 Free Kindergarten Schools in 137 cities in this country and abroad have been organized directly through the influence and inspira-

tion of the Golden Gate Kindergarten Association during the past 18 years. The number is growing rapidly everywhere.

100,000 Reports of the works of the Association have been scattered over the world. Special edition are distributed at times when the interest in the work can be increased, and the money can be had for that purpose; each report sowing the seed of good for humanity. The U. S. Commissioners of Education pronounces the Golden Gate Kindergarten work, the best in the world.

Mrs. Sarah B. Cooper of the Golden Gate Free Kindergarten Association, now deceased, was the guiding spirit in the grand work of the Golden Gate Free Kindergarten Association; earnest workers and loving friends of the children will continue the noble work so well begun. Mrs. Cooper and her many friends have labored hard to make this the best working Kindergarten school system in the world. There are at least 100 public and private Kindergartens, and about 126 teachers with nearly 6,000 children from 3 to 6 years old. This Association has 95 teachers and matrons, 45 schools and 2,865 children, and is doing splendid work at home and abroad. 24,460 children have been educated. More schools are organized, as means for their maintenance is subscribed. In 1897 expenses were about \$45,000. At the 14th anniversary of the California Training School, 41 Kindergarten teachers graduated, making a total of 350 people who have been thus honored. The average cost in the public Kindergarten, per year, is \$15.90 per child, while in the public schools the rate is from \$20.83 to \$30.15 per pupil.

These schools are doing good and should be well supported by all having the true interest of the rising generation and humanity at heart. As these schools are supported by voluntary contributions of friends, let no appeal for help in this noble cause go unheeded. The return will be many fold in the future, by lessening ignorance, pauperism, misery, vice and crime in all its hideous forms, and producing in their stead a great, noble, generous and virtuous humanity on whose shoulders the future of the world may rest in security.

20 of the above schools are endowed perpetually, the others depend upon monthly and yearly subscriptions for support.

Oakland, Berkeley and Alameda each have many flourishing schools.

Friends: You are invited and are always welcome to visit the Kindergarten Schools from 9 a. m. to 12 m.

Special lectures by eminent state educators at stated times—notice of these are given through the newspapers.

Mothers' meetings are held at short intervals in every Kindergarten to increase the interest and secure their attention in this great work.

The richest educational institution in the world is the Leland Stanford Jr., University—endowment, \$20,000,000

State University of California ranks 5th in its endowment of \$7,000,000.

**Climate of San Francisco.**—In July the mean temperature is sixty degrees, the days are pleasant, the evenings are cool and sometimes foggy, and demand heavy clothing and active movement for those who spend much time in the open air. S. F. is cooler than New York or Chicago in July by seventeen degrees.

San Francisco has 1,257 miles of paved streets.

The large t sol'd masonry dam in California is the Sweetwater dam San Diego County, about ninety feet high.

## CHURCHES OF SAN FRANCISCO.

NOTE. — The first Anglican Episcopal Church service held in the present region of the U. S. was celebrated on June 24, 1579, by "Francis Fletcher," chaplain of the ship "Golden Hinde," commanded by Francis Drake, on the shore of what is known as Drake's Bay, on the N. E. side of Point Reyes, Marine Co., Cal. A marble monument, Drake's Cross, has been erected in Golden Gate Park, just west of Strawberry Hill, in memory of this event.

Churches of all denominations have one or more of the following organizations under their control: Sunday Schools, Prayer Meetings, Young Men and Women's Meetings, Mission Societies, Mission Bands, Young People's Leagues, Ladies' Aid Societies, Relief and Aid Societies, Christian Endeavor, Epworth Leagues, Chautauqua Circles, Lyceums and Literary Societies, Social and Singing Clubs, Temperance Societies, Bands of Hope, Helpers, King's Daughters, Kindergartens, Common, and Higher Grade Schools, Drill Corps, Boys' Brigades. The above and many other organizations to aid the spiritual, intellectual, and material advancement of the human family.

**SAN FRANCISCO STREET CAR LINES.**

This City has a network of Cable, Electric and Horse Car Lines, one of the finest and most perfect Street Car Systems in the Country.

San Francisco was the birthplace of the Cable Roads; the ease, smoothness and velocity (8 miles per hour), in which the steepest hills are surmounted, is wonderful, and the views of this splendid city obtained from them is in many cases very fine. The Clay St. Cable Road from Kearny to Leavenworth was the first one in the world, began to run Sept. 1, 1873.

Fare 5 cts., including only one transfer with its connecting lines.

Ferry, foot of Market Street, is the starting place for nearly all lines.

Route of Car Lines, General Office, Time of first and last Car from each end of Line, driving time from end to end of road, color of light, and where transfers are given.

On Sunday the first car on nearly all lines is half hour later than on week days.

All Street cars stop on furthest street crossing on their route.

All Street Car Lines in this city belong to the Market St. Railway Co., except those preceded by a \* They are separate Companies.

This Street Car list has been carefully prepared and is up to date, but remember, that time tables, transfer points and some times other essentials do change on Street Car Lines.

**GREAT FIRES IN SAN FRANCISCO.**

- Dec. 24, 1849, a million dollar loss.
- May 4, 1850, four million dollar loss.
- June 14, 1850, almost laid the entire city in ashes, 5 million dollars.
- July 17, 1850, burned several remaining blocks, ½ million dollars.
- May 4, 1851, about 12 million dollars loss.
- June 22, 1851, about 3 million dollars loss.

Santa Clara County has more than half the prune trees in America. California is the only raisin-producing State in the Union.

# STREETS, AVENUES, ALLEYS, PLACES AND SQUARES

OF THE CITY AND COUNTY OF

## SAN FRANCISCO.

**Reference**—The name of every Street in this city is given in alphabetical order, with its location and that of all Avenues, Alleys, Courts, Places and Streets that begin at or cross the street in question. **Numbers** on streets running from the bay (like Market, Mission, Sacramento, etc.) begin at the bay; those north and south of Market (like Geary, Kearny and Third) begin at Market. Mission Street from north to the County line, is the beginning of, and all streets number East and West from it. Even numbers are on the right and odd numbers on the left hand side from the place of beginning—100 numbers or less, each block.

**Locating**—**Letters** and **Figures** at end of description of all streets, shows the index lines on the Map running N and S and E and W forming quarter mile squares by which the distances in any direction can be ascertained, and also the location of any street may be found within a quarter of a mile square by the index.

**Figures** at top and bottom and the **letters** on each side of **MAP**, designating that part of the City in which the alley, court, place or street may be found. Example:

On **streets not given in detail** the highest grade or elevation, in feet, is given in the figures immediately following the name of the street. Example:

**Acorn Alley**, 251 b California &  
Sacramento, f 1115 Leavenworth  
W 12,6—2,6 13 F 276.

This indicates that the **highest grade** is 251 feet, the width of street and of sidewalk are shown in feet and inches and are separated by a comma. 12,6—2,6 indicates that the street is twelve feet and six inches and the sidewalk two feet six inches wide.

The figures, before the name of a street show that the Avenue, Alley, Court, Place or Street begins at or near (1115 Leavenworth) that number.

13 indicates Section 13, North and South.

F indicates Section F, East and West.

The figures 276 give the number of the block in which the small street is located.

Where **two sets** of locating figures are given (6 and 10 L) as in Alabama, it shows the name of street is found in those places:

**Elevation or Grade**, in feet, of all main streets, at corners, given in right hand column of figures. Example:

**Alabama**, b Florida and Harrison,  
f Channel F to Serpentine av.  
90—15. 80—19. 6 and 10 L.  
1 Channel..... 6  
101 Alameda..... 9  
201 El Dorado..... 12

The **figures**, 6, 9 and 12 show the grade. The figures following the location of the street show the width of street and width of sidewalk, the two being separated by a dash. If the street is not of the same width throughout, two sets of figures are given, as in the example, **Alabama**.

**Width of street** is from house line to house line, and includes both sidewalks, as in Alabama 60—15, 80—19. The streets are 30 and 42 feet wide, the sidewalks on each side are 15 and 19, or both 30 and 38,

thus making streets and sidewalks 60 and 80. Alabama Street widens from 60 to 80, this is why the two widths are given.

Where **cross street** are not given in detail, reference is made where they can be found.

The **crown** or **center** of all graded streets is 12 to 18 inches higher than at the curbstone.

The **dash** — in **column** of street numbers shows that this street does not cross the main street. A blank space in the column of street numbers signifies that the street crosses between the numbers given.

**Abbreviations**—Al for Alley; Alph for alphabetical; Ave for Avenue; b for between; c for Fractional Blocks; con for continue; Ck for Creek; Co for County; cr for cross or crossing; Ct for Court; d for does not cross; e for end of street; ext for extended; Pl for Place; Rd for Road; Res. for Reservation; So for South in street names; S s for South side; St for street; N, E, S, W for points of compass. Base means 6½ feet above high water.

**NOTE**—Any omissions in this list are of facts not now attainable
