MI ssson 8-9000, Extension 5586.

## TOLL CALLS

Place toll calls only when absolutely necessary and avoid placing calls during the busy hours—  
9 to 11 A.M. and 4 to 5 P.M. Long distance calls should be placed on a station basis.

Keep conversations brief.

Remain on the line when placing toll calls.

If a delay is encountered at the distant telephone, identify the call as a long distance call by giving  
your name and the calling point.

## OFFICIAL TELEGRAMS

Our Company operates a private line official teletypewriter service between San Francisco, Los  
Angeles, Portland, Seattle and Long Lines points and a TWX service to the other Associated Companies  
through the Official Message Center, Room 226 at 140 New Montgomery Street, San Francisco.

The purpose of this service is to provide for all official communications thereby clearing the commercial  
toll telephone and TWX facilities for the use of our customers. The official service should be used by all  
employees for Company business when the mails are inadequate because of the time requirements.

Official telegrams should be typed or written legibly on plain paper with the heading "OFFICIAL  
TELEGRAM", and should bear the sender's extension number and departmental expense code.

Between 8:00 a.m. and 5:30 p.m. Monday to Friday, inclusive, telegrams originating in San Francisco  
should be delivered by company mail or messenger to the San Francisco Message Center. If originated in  
the "140" building, they should be enclosed in a red envelope, Form S-3000-CA, and deposited in the  
mail chute, where collections and deliveries are made at fifteen-minute intervals.

At all other times telegrams should be telephoned to Pacific Telegraph, DOuglas 2-9000, or sent by  
messenger to the Pacific Telegraph office at 333 Grant Avenue. When telephoned, telegrams should  
be designated as "official company business". They should be followed on the next business day by a  
confirming copy, so marked, exactly as telephoned, and bearing the sender's extension number and  
departmental expense code.

From East Bay company stations, official telegrams may be telephoned by calling TEmplebar 2-9000.

NOTE:—Telegrams of a personal nature are not accepted for transmission as official company business.

## CALLS TO BUSINESS OFFICES

If you wish to secure information from the business office regarding a service order or account (or to place an order on existing service) on which the telephone number is known, ask the attendant at the PBX serving the business office involved, for the service representative handling the particular account; for example, "Please give me the service representative handling DOuglas 2-5997".

If no telephone number is involved or to place an order for new service, give the PBX attendant the name and address involved and she will connect you with the proper service representative.

## DIRECTORY LISTINGS

Unless otherwise indicated, the extension number shown in this directory is that of a station connected with the GARfield 1-9000 PBX. The address of employees in the 140 New Montgomery Building is designated by room number only. The address of employees in other major buildings is designated by a room number, if any, followed by a code number indicating street address. In all other instances, street addresses are used. Directory changes, additions or deletions, should be reported immediately to the department employee responsible for preparing such information in order that this directory and the PBX operators' records may be kept up to date. Forms FM 1042 for use by the department representative may be obtained from the Traffic Office Manager, GARfield 1-9000 extension 3136.
