ADDITIONS AND CORRECTIONS.

GOLDEN CITY CHEMICAL WORKS.—Since the sheets of this work, giving an account of the manufactories of San Francisco have been printed, a company has been incorporated under this title, with a capital of \$500,000. They have an extensive laboratory, with all the modern improvements, located on the corner of Seventh and Townsend streets, under the superintendence of H. P. Wakelee, Esq. The operations of these works have been, thus far, principally confined to the manufacture of sulphuric, nitric, and muriatic acids, their capacity being sufficient to manufacture 20,000 pounds of the former each day. These works have the contract to supply the U. S. Branch Mint, and the San Francisco Assaying and Refining Works. They are prepared to manufacture every variety of chemical preparation for which there is any demand.

QUARTZ MILLS, CALIFORNIA, PAGE 72.—The aggregate number of stamps in the State is four thousand nine hundred and ninety-seven.

METALLURGIC AND ASSAY ESTABLISHMENTS, page 103. The San Francisco ASSAYING AND REFINING WORKS are also engaged in the assaying of the precious metals.

NEWSPAPERS, PAGE 111.—Since the list has been compiled, The Recorder, a weekly paper, has been commenced at Vallejo, by George A. Poor & Co.

AREA AND RESOURCES, OREGON, PAGE 118.—In a part of the edition, the area of the State is placed at 120,000,000 acres, the extent of the old Territory, instead of its present limits, 60,000,000 acres.

MANUFACTURES.—Oakland Cotton Mills, page 96; California Clothing Company, page 97; and Salem, Oregon Woolen Mills, page 124*; add to each, Badger & Lindenberger, agents, 411 Battery street, San Francisco.
