### The University of California.

The University of California is located at Berkeley, the most northerly suburb of Oakland, situated about four and one-half miles from the city, and is reached by a horse railway from Oakland, and by ferry from San Francisco. That the site was well chosen may be seen by the following from the (manuscript) report of Professor Soulé.

“The diversified character of the surface brings into use all the principles of surveying and topography. It is in area 200 acres, is watered by numerous springs in the hills. With the spring water and surface water saved, the grounds can be thoroughly irrigated throughout the year, and made to blossom as the rose. The lower portion of the grounds is flat and moist throughout the year,
