Camptonville, Yuba Co, P O 45 miles n e of Marysville. A mining town on Oregon Creek, a branch of the Middle Yuba River, on the stage road leading from the Pacific Railroad at Colfax through Nevada and North San Juan to Downieville. It is also connected by stage with Marysville.

Extensive gravel ranges are in the vicinity, upon one of which the town is built, and these have been largely mined by the hydraulic process, but a want of sufficient water retards operations. The locality is healthy, the site pleasant, and mineral resources unlimited, but without abundant water and other appliances which only well directed capital can command, no mining town can prosper.
