COLLEGES AND SCHOOLS.

The General Government has donated to the Territory 46,080 acres of unoccupied land for the endowment of a Territorial University, which, it is estimated, will create a fund of not less than \$75,000. The Legislature of 1862 passed an act incorporating a Territorial University, and providing for the election of a Board of Regents for its government. The University is located at Seattle, and is in a highly prosperous condition. Much attention has been paid to the establishment of district schools throughout the Territory. The General Government has set apart two sections in each township, or one-eighteenth of the public land, for common school purposes. The amount thus donated to this Territory is equivalent to some 3,000 square miles of land.

*The published reports of the area of the Counties of Washington Territory differ materially. The latest returns are included in the description of each county.
