"THE IRONMONGER" was established in the year 1859, and is the oldest and only representative organ of the Iron, Hardware, and Metal Trades. This Journal stands pre-eminent amongst trade publications, and possesses all the advantages of the Commercial Newspaper and a high-class Literary Magazine. The principal characteristics of "The Ironmonger" are set forth in the accuracy of its Market Reports and Prices Current, the intrinsic value of its Home, Foreign and Colonial Correspondence, the impartiality of its gratuitous criticisms upon the leading novelties of the day, its careful selection of Agricultural, Legal, and Magisterial news appertaining to the Metal Trades, the completeness of its lists of Patents and general Statistics, its comprehensive Directory of Manufactures, and multiplicity of classified Advertisements. It can, therefore, be immediately perceived that the main object of this publication is to furnish a faithful record of all things of specific value to those interested in the manufacture, purchase, consignment, shipment, or sale of Hardware, Arms and Ammunition, Oils, Seeds, Implements, and Machinery.
