 Quamichan, Vancouver District, P O ad-
 dress, Cowichan
 Bourdout Peter, general merchandise, and flour man-
 ufacturer
 Quesnelle, Cariboo District, P O, is located
 on the north bank of the Quesnelle River, at the
 junction of that stream with the Fraser, 500 miles
 from Victoria. This town is the present head of
 steamboat navigation on the Upper Fraser, and en-
 joys the monopoly of the business of storage and
 transmission of goods intended for the Cariboo
 mines. The climate is exceedingly mild and healthy
 throughout the year. The soil in the vicinity is very
 fertile and a large quantity of land is cultivated
 annually, for the purpose of raising farm produce
 for the mines, where a good market is always ob-
 tained. A little mining is still carried on, chiefly by
 Chinese, along the banks of the Fraser and Ques-
 nelle Rivers. During the summer season weekly
 steamers run to and from Soda Creek, sixty miles
 lower down the Fraser River, and weekly stages
 connect with Barkerville, in the Cariboo mines, 60
 miles northeasterly.
 Barlow Abraham, justice of the peace
 Barnard & Co, proprietors Barnard's Express

 Reid James, general merchandise, and forwarding
 Robertson Duncan, blacksmith
 Stone James, postmaster, and telegraph operator
 Sylvester R, express, and mail agent
 Wallace Alexander, hotel (Thirteen Mile House)
 Williams Errick, carpenter
 Quesnelle Forks, Cariboo District, P O,
 is in the southern portion of the Cariboo region, and
 is at the junction of the south and north forks of the
 Quesnelle River, which thence flows northwest to
 the Fraser. The population of the town is about
 300, being mostly Chinese, who carry on quite a
 large business, many in the neighborhood being
 engaged extensively in stock-raising and farming.
 This is in latitude 52° 40', and longitude 121° 30' west.
 The south fork of the Quesnelle has its source in
 Quesnelle Lake, a large sheet of water about ninety
 miles in length, with branching arms that give it
 greater extent. Formerly the main route to the
 Cariboo mines was through this place, but the con-
 struction of the road via Quesnelmouth changed
 the travel. Gold is found in every direction, but the
 country being difficult of access is not mined much
 at present.
 Barry W P, postmaster, and bridge proprietor
 Hare Oliver, government agent
