

# We Are Making Money

*Let Us Make  
Some For You*

---

---

While we have no direct interest in the United States Mint in San Francisco, we can magnetize YOUR money by which it will attract mint money, and in proportion to the value and number of pieces which you desire so magnetized. We work in harmony with our Government in upbuilding and therefore value increasing Real Estate. We can refer you to our clients, some money of which we have successfully magnetized.

FOR EXAMPLE—5 per cent. to 12 per cent. net on realty loans, 6 per cent. to 15 per cent. on "flat" investments. Bank interest on "inside" property, value of which is being steadily increased by reason of rapid business expansion. 100 per cent. to 200 per cent. on "wholesale" investments. Sold in units of \$125 with a 7 per cent. net interest bearing certificate with a bank guarantee, etc. A remarkable opportunity for the conservative investor.

We are on the GROUND FLOOR and have one of the largest and most thoroughly equipped offices in Alameda County. Correspondence solicited. BANK AND CLIENT REFERENCES.

We are headquarters for the Great Klamath Country—"the place where things grow"—Klamath Falls, the coming "Spokane." Big opportunities for people with limited capital. Call for illustrated literature or attend our weekly free stereopticon lecture.
