

# TABLE OF CONTENTS.

Aluminum 96 per cent, chemical alloys 4 per cent, and real downright merit, strength, and finish enough to make the best steel wheel blush for shame.

Every LU-MI-NUM frame is tested to 2000 lbs. before leaving the factory, and if you break it you can have a new wheel for \$10; or a flaw gets you a new one for nothing.

THE PEARSON-SWENARTON CO.,

113 Montgomery Street, San Francisco, Cal.

Pacific Coast Agents LU-MI-NUM Bicycles, also high Grade Steel Wheels at lowest prices. Largest line of sundries, clothing, etc., on the Coast.
