Umbrellas, Parasols and Canes

Repairing and Re-Covering a Specialty

All Work Guaranteed

DIRECT IMPORTER OF THE GENUINE
PARAGON FOX FRAME and the best grades of
English, German and French Umbrella Silks.

In all our better grades of umbrellas we use the im-
ported Paragon Fox Frame, each one plainly trade-
marked "Paragon-Fox & Company Ltd., otherwise not
genuine." The frame is put together with tempered brass wires which will positively withstand
rust. Too much stress cannot be laid upon the importance of a good frame in any umbrella, for
if a rib breaks and protrudes through the covering the umbrella is ruined by the fractured portion
puncturing and ripping the material.

Umbrellas Made With Steel Rod or Hard Wood Sticks
