

We would call especial attention to the advertisement of Messrs. **LOCAN & Co.**, as their stock comprises many kinds and classes of goods known to but few, if any, Houses in the city. Their *Zephyr Wools* they have made a speciality in their business, and are of their own manufacture, and beyond question are superior in fineness of quality and colors to any ever before offered in this market. Also, prominent in the list of articles that comprise their stock, we would notice those of *Embroideries, Patterens, Canvas, and Embroidering Floss and Twist*, together with an endless variety of articles for needlework, which Ladies only will be able to understand or appreciate.

Their Fancy Goods embrace every variety of style calculated to attract the eye or please the fancy known to a Fancy Goods Store.

Messrs. Locan & Co. manufacture every description of Fancy Articles to order, and warrant them richer in material and more substantial in finish than those brought from European markets.

A resident partner in Europe attends personally to making their selection of goods, which gives them a great advantage in supplying styles and kinds of goods suited to this market. Country Dealers will find it to their interest to examine their stock before making their purchases.
