

**FIVE HUNDRED THOUSAND IN USE.****THE AUTOCRAT OF THE KITCHEN.**

**The Original P. P. Stewart's Fuel-saving and Comfort-producing large Oven, Summer and winter Airtight Cooking Stove, for Wood and Anthracite or Bituminous Coal.**

**IMPROVED IN 1859,**

**With New and Extra Large Flues, and by the addition of the Celebrated Patent Double Sheet Bottom Flue.**

Attention is invited to the following points of superiority:—

1st. **DURABILITY.**—Lasting, with proper care, at least twenty years. Stoves are now in use that were set up in 1838.

2d. **MANUFACTURE.**—Every portion of the Stove is thoroughly constructed. Each Stove is submitted to a critical test, and none can leave our works unless completely and perfectly finished.

3d. **CAPACITY.**—Baking, broiling, boiling, roasting, and all other culinary operations performed at the same time.

4th. **ECONOMY.**—Saving the cost of the Stove in one year in the item of fuel.

5th. **VENTILATION OF OVEN.**—In the Stewart Stove alone, the front doors open directly into the oven (protected by letters patent), securing a direct draft through the top of the oven by means of perforated holes in the doors and back flues. It will be borne in mind that, as the heated air always rises, this method of ventilation is the only one of any value whatever.

6th. **ENTIRE CONTROL OF HEAT.**—The heat generated by the Stove may be held therein and used, or thrown into the room at pleasure.

7th. **THE DOUBLE SHEET BOTTOM FLUE.**—By which a compression and inverting action of heat is obtained, and the oven more evenly and efficiently heated than by any other known invention.

8th. **BROILING.**—Performed on the top, and without the possibility of smoke entering the room.

9th. **HOT WATER RESERVOIR AND WARMING CLOSET.**—Both useful and convenient, supplied by the waste heat and without extra fuel.

10th. **WATER BACK.**—An arrangement for supplying hot water for the bath-room equal to any range.

**BEWARE OF NUMEROUS IMITATIONS IN THE MARKET,** many of which resemble the Stewart only in appearance, and none of them possesses any of its peculiar qualities.

SEE THAT THE NAME OF P. P. STEWART, and of the manufacturers, are on each stove. None other genuine.
