

The House of MESSRS. GEORGE S. HASKELL & Co. was established (as will be seen by their advertisement on the preceding page) in the year 1858. Their facilities for supplying a staple article of *Groceries* and superior qualities of *Teas* to families, hotels, boarding-houses, &c., and the Trade generally, are not surpassed by those of any other establishment in the city. As to the quality of their groceries, we need only mention that they have been pronounced A No. 1 by scores of the leading families in the city, who constantly use them. Of the superiority of their *Teas*, we would state that they have become so widely known that Messrs. Haskell & Co. are constantly receiving orders from all parts of the Pacific coast, and frequently from New York and other Atlantic cities. The reason of this is from the fact that they import all their *Teas* direct from China, and make their selections with great care. The same may be said of their *Groceries*, which enables them to offer a better article and warrant all goods sold at their establishment.
