

The Trunk Emporium of Messrs. STEELE & Co., at 222 and 224 Sansome Street, we would call especial attention to, as being prominent among the noticeable features of our city in trade and manufacture.

The proprietors of this establishment, by strictly adhering to the rules that govern all legitimate business, viz : fidelity, economy and punctuality, have established a reputation and built up a trade of no little importance in this community, a reputation and trade that will favorably compare with that enjoyed by any of the leading and best houses in their line of business on the Pacific Coast, or in the Atlantic states.

Their stock of Trunks, Valises, &c., as shown by their advertisement, consists in addition to a large assortment of their own make, of every variety of American, French and English styles, and are not excelled, if equaled, by any other house in the trade.

Messrs. Steele & Co., have every arrangement perfected for the constant receiving of supplies and importing of their goods direct from the manufacturers, which enables them to offer a better article, and at less prices, than those whose facilities extend only to this market.
