

SAN FRANCISCO
HYGIEAN HOME.
 (WATER CURE.)

637 California Street, near Dupont.

BARLOW J. SMITH, M.D., - - - - - Proprietor.

R. S. MACBETH, M.D., - - - - - Physician.

This is the only regular Water Cure in San Francisco combining all the appliances of Eastern and European Water Cures, and where the treatment is based on the theory and practice of the Hydropathic College of New York, and practiced by its professors, and where diseases are treated strictly on Hygienic principles. All persons desiring to improve their health are cordially invited to visit the HYGIEAN HOME, and see for themselves the superior advantages afforded to invalids. We feel confident that none will go away dissatisfied. Our accommodations for bathing and giving ladies general treatment are far superior now to what they ever have been before, and we know that there is not one female invalid in twenty that has been suffering from Nervous Debility, or Diseases peculiar to their sex, that cannot be permanently cured by spending from four to six weeks at our Home.

All kinds of Baths are kindly and scientifically administered, with separate departments for Ladies and Gentlemen.
