

TUSTIN'S WIND MILLS.

EUREKA.

Nine Sizes.

Pat. Nov. 23d, 1869.

Awarded the **FIRST PREMIUM** by the Mechanics' Institute of this City. These Mills are very simple in construction, the cheapest and most durable of any now in use. They embrace the latest improvements. A child can start or stop them, or set them to run at any desired speed, by simply drawing a cord while standing on the ground, thus obviating the danger of ascending a ladder. When exhibited in competition with others, our Mills have always taken the First Premium, for which we have our diplomas to show. We guarantee all our work.

ECONOMY.

Nine Sizes.

Protection Secured.

Wind Mills, Horse-Powers, Tanks, Pumps and Piping kept constantly on hand. All orders for Well-Sinking promptly attended to. **Manufactory, corner Market and Beale Streets.**

W. I. TUSTIN.
