

# THE PACIFIC IRON WORKS.

ESTABLISHED IN 1850.

EMBRACING

## FOUNDRY,

### MACHINE, BOILER, FORGING AND SMITHING,

PATTERN AND WOOD WORK DEPARTMENTS, DRAWING AND LIBRARY ROOMS, &c.

George W. Fogg, Superintendent.

IRA P. RANKIN.

ALBERT P. BRAYTON.

These works have now been in successful operation for the past twenty years. From a comparatively small beginning in the year 1850, its increasing patronage has each year demanded enlarged facilities, until our establishment, in all its appointments, will compare favorably with that of any similar one in the country.

Our patterns, in variety and extent, are unsurpassed; embracing the latest improvements in all classes of machinery, adapted to use on this coast. Our several departments are well equipped with skillful workmen, and efficient tools; enabling us to execute all orders entrusted to us promptly, and in the most workmanlike manner. With ample facilities for doing work, as also for producing our supplies from first hands, we are enabled to give our customers first-class machinery, at prices frequently paid for inferior work. The most skillful designing and engineering talent, applying to the various branches of mechanical work, constantly at the service of our customers.

Orders for all classes of Machinery, Castings, or Boiler Work, promptly executed at the most reasonable rates. Sole agents for HUNTON'S PATENT GOVERNOR, the best Engine Regulator in use.

Particular attention given to Steamboat and Steamship Work. Mining and Hoisting Machinery of the most approved construction. Depot for the HANSBROW PUMPS.
