

HEALD'S BRYANT & STRATTON BUSINESS COLLEGE, 24 Post Street, San Francisco.

The object of this School is to fit boys, young and middle-aged men for business. This is accomplished by means of a novel and interesting system of combining actual practice in all kinds of business transactions, with the theoretical study of accounts, mathematics, &c. By this method of teaching persons can be fitted for business of any kind in a short time. To young men our course of study is invaluable, since it prepares them to enter the counting-house at once. Persons about to enter business will find that a course at this College will tend greatly to insure success. This is the only

BRYANT & STRATTON COLLEGE

upon this coast, and its Scholarships are good for tuition in Thirty-Six Colleges. Our course of study is far more extended and thorough than that of any other Business College in this city. Our rooms are much larger and better fitted-up, and we have in attendance twice the number of Students that any similar school upon the Pacific Coast can claim. Students should attend none but a Bryant and Stratton Business College, on account of their many advantages over any single school.

Heald's College Journal,

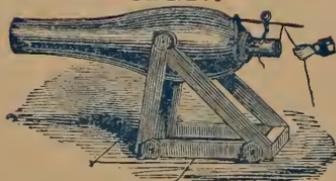

containing full information regarding the School, and much interesting reading matter, may be obtained at the College Office, 24 Post Street, or by addressing

E. P. HEALD,
