DR. SMITH'S HYGEIAN HOME WATER CURE,

637 California Street, opp. St. Mary's Cathedral, S. F.

This is the only regular Water Cure in San Francisco, and by far the most extensive and complete Hygienic Institute on the Pacific Coast.

Dr. Smith claims to have made discoveries in the science of Phrenology that enable him, either blindfolded or otherwise, by an examination of the head, to determine the diseases to which the person is constitutionally subject, or whether the disease at the time afflicting the person is the result of an accident or hereditary weakness, whether consumptive, dyspeptic, rheumatic, apoplectic, neuralgic or seminal. Especially does the form of the head indicate the strength of the uterine and reproductive system.

The head is also an index of the natural strength of the lungs, heart, stomach, liver, kidneys, spleen, back or vertebra, and it determines the power of the system in warding off and overcoming diseases of all kinds.
