Company's Office.

J. E. SLINKEY,

PROPRIETOR.

THE WHELPLEY & STORER ORE MILL,

215 and 217 MAIN STREET, BET. HOWARD AND FOLSOM.

We have the most complete machinery and appliances for Crushing, Sampling, Pulverizing and Working Ores, Minerals, Paints, etc. We find purchasers for Gold, Silver, Copper, and Lead Ores, and obtain the highest cash prices for the same. We pay special attention to consignments of Ores and Minerals, and execute with promptness any orders intrusted to our care, and assure the Miner he can save from 8 to 10 per cent. of expense by consigning directly to us. We are also agents for the sale of the Whelpley & Storer Dry Quartz Crushing and Pulverizing Machinery, which is acknowledged as being the best, as it reduces ore much finer than can be done by stamps, and at a less expense per ton. These machines are in practical operation at our Mill, and at several places in the mountains. Miners visiting the city are invited to visit our Works. Descriptive Circular sent on application.

P. O. Box 2028, San Francisco.

GEO. D. WYMAN, Manager.

ROOFS AND SIDEWALKS

With my Portable Kettles I can do work (Roofs and Pavements) better and cheaper, avoiding delays, smut, dirt, DANGER FROM FIRE, besides GREAT EXPENSE of cooking Asphaltum on the premises.

Laid with my "PATENT IMPROVED ASPHALT," guaranteed to remain HARD and FIRM during the WARMEST weather in any part of the State.

Asphaltum, Boston Mastic and Tin Roofs Repaired, Covered, or laid to order. Asphalt Sewer and Water Pipe for Sale. Country orders for CRUDE or REFINED ASPHALTUM, PITCH, TAR, ENGLISH AND AMERICAN FELTS and ROOFERS' SUPPLIES, must be accompanied by cash, or good city references.

Tenders for bids, City and Country, respectfully solicited.

FRANK H. BURKE,
316 Montgomery Street, S. F.
