

UNION FENCE MANUFACTURING CO.

Patentees, Manufacturers and Proprietors

—OF THE—

Improved Fence Machines and Fences,

117-119 MAIN STREET.

A PERFECT FENCE.

with the best Bessemer Galvanized Steel Wire. The advantages of this Fence over all others, **Durability and Cheapness.**

DURABILITY - ECONOMY.

TO PURCHASERS.

Superior to those of any other Fence Company. The quality of our fence is superior to that of our own lumber mills to supply us exclusively, thereby giving us a choice picket at a low price, hence have no royalty to pay. 3d—Our machines are run by steam power,

Caring the Union Fence.

Weight of 2000 lbs. to each strand. Our pickets are selected from the best Oregon Pine. The pickets cannot work loose, owing to our patent tension process, by which they are secured by mutilation is avoided. The expense of our fence is very small, and the cost of our machines are run by steam, thereby guaranteeing an even tension in all parts of the fence, and equaling the tension. It is important to have an even tension, as the strength of the fence depends thereon.
