

"DRIFTED SNOW" flour is Pronounced Excellent by Those Who Use It

PUBLIC STREETS, AVENUES, SQUARES, PLACES,

OF THE CONSOLIDATED

CITY OF SAN FRANCISCO,

IN ACCORDANCE WITH THE OFFICIAL MAPS, 1868, 1870, AND 1872

AND SUBSEQUENT ORDINANCES

EXPLANATORY.—The Ordinance for re-numbering the buildings of this city provides that "Market Street shall be the starting point for the numbers of all buildings fronting on the streets running therefrom in a northerly direction, and also for those running therefrom in a southeasterly direction. The streets laid down in the official map of the city as forming the water front thereof shall be the starting point for numbers on all streets running westerly and southwesterly therefrom, except upon such streets running westerly commencing from Market Street, and upon all such streets, Market Street shall be the starting point for numbers. On all streets the numbers on the right hand side, starting from the point of beginning, are even numbers, and on the left hand side, odd numbers. One hundred numbers, or as many thereof as may be necessary, shall be allotted to each block bounded by principal streets; numbers 100, 200, and 300 being respectively the numbers for commencing the blocks distant one, two, and three streets from the starting point on the side designated for even numbers, and numbers 101, 201, and 301, in similar manner for the opposite side of the street, throughout its extent; so that the initial figure of the number placed on a building at any street-crossing shall indicate the number of main streets such street-crossing is from the starting point. Not less than twenty feet in frontage of all vacant lots of ground shall be allowed for each number. On all cross or intermediate streets the numbering shall commence by this new decimal system of numbering buildings, the exact location of any number is readily ascertained; for example, if you want to find 624 Montgomery, it is on the east side of the block extending from Clay to Washington, which is the seventh from Market—Commercial and Merchant being private streets. Again, 825 Clay is on the ninth block from the water front, which is the one extending from Dupont to Stockton. It must be borne in mind that one hundred numbers are allowed on each block between principal streets.

The following streets are but partially opened, and each differ materially from the plan originally laid out, viz: Clementina, Ecker, Jessie, Minna, Natoma, Ritch, Shipley, Stevenson, and Tehama. The territory lying west of Laurel Hill and Odd Fellows' Cemetery, and generally known as the Outside Lands, has recently been surveyed, and is designated on the new official City and County Map as avenues and streets. Those running north and south are named respectively from First to Forty-ninth avenues, and those running east and west, from First avenue to the Ocean, and parallel with Point Lobos Avenue, A to W streets.

Reference is frequently made in the Register of Names to the following, and which are located as follows: Hoadley's Addition, situated west of Pierce and between Geary and Washington; Horner's Addition, south and near the Mission Dolores; Western Addition, west of Larkin; San Miguel Ranch, southwest and near the Mission Dolores; Bernal Heights (B. H.), south of Twenty-sixth Street, between San Bruno and San Jose Roads; and University Mound Tract (U. M. T.), west of San Bruno Road, five miles from the City Hall. See, also, Prominent Places, end Street Directory.

(b) Street not opened. (c) Fractional blocks, one hundred numbers allowed for first two blocks. (d) Fronting the bay. (e) Street ends. (—) Street does not cross. B. H., Bernal Heights. U. M. T., University Mound Tract. S. S. F., South San Francisco. A blank is used where the number at the crossing of a street could not be ascertained.

NOTE WITH REFERENCE TO SOUTH SAN FRANCISCO STREETS.—The names of the Avenues in South San Francisco have been changed back by an ordinance of the Board of Supervisors to the original numbers with the addition of the word South. For instance: Fifteenth Av. South, formerly Teneriffe St. The cross streets which were originally lettered were some years ago given names in place of the letters, and such change still remains in force.

A, bet Point Lobos av and B fm First av W.
A, South S F. See Alley.
Aberdeen, bet Jónah and Albert fm Sunny Vale Homestead Association S to County line.
Academy, bet Chenery and San Jose Railroad fm Charles to Fairmount, Fairmount Tract.
