

P R E F A C E.

This thirty-second volume of LANGLEY'S SAN FRANCISCO DIRECTORY is presented with increased matter in all of its departments.

An increase of twenty-three thousand names over the number contained in the issue of last year attests the extraordinary thoroughness of the canvass. The number this year is one hundred and fifty-one thousand four hundred and sixty.

The index to contents has been again enlarged with especial regard to facilitating reference to the valuable miscellaneous information concerning Societies, etc., at the beginning of this volume. A table of contents has also been added.

The street guide has been revised and the names of one hundred and forty new streets have been added.

Attention is called to the following new features in the business of this Directory :

A Supplementary Directory Register of new arrivals, corrections and changes in business and residence occurring throughout the year will hereafter be kept at the Directory office for the use of the public, free of charge. All are requested to send prompt notice of such arrivals and changes to this office. It is believed that it will be an advantage to the public to be enabled to obtain information of such changes without waiting for the next issue of the Directory.

A separate volume, entitled LANGLEY'S SAN FRANCISCO BUSINESS DIRECTORY AND STREET GUIDE FOR 1891, is issued contemporaneously with this volume, the price of which, in paper binding, is one dollar. It consists of the complete business directory, street guide, map of the city, and all the miscellaneous information with regard to Societies, etc., contained in this work.
