MEDICAL DEPARTMENT

Toland Hall, Stockton St., Below Chestnut

SAN FRANCISCO

FACULTY

- MARTIN KELLOGG, A. M., LL. D., President of the University.
 G. A. SHURTLEFF, M. D., Emeritus Professor of Mental Diseases.
 R. BEVERLY COLE, A. M., M. D., N. R. C. S., Eng., Professor of Obstetrics and Gynecology.
 W. F. MCNUTT, M. D., M. R. C. P., Edin., etc., Professor of Principles and Practice of Medicine.
 ROBERT A. McLEAN, M. D., Professor of Clinical and Operative Surgery; Dean.
 W. F. TAYLOR, M. D., Professor of Principles and Practice of Surgery.
 A. L. LENGFELD, M. D., Professor of Materia Medica and Medical Chemistry.
 BENJ. R. SWAN, M. D., Professor of Diseases of Children.
 G. H. POWERS, M. D., Professor of Ophthalmology and Otology.
 WM. WATT KERR, A. M., M. B., C. M., Edin., Professor of Clinical Medicine.
 ARNOLD A. D'ANCONA, A. B., M. D., Professor of Physiology.
 DOUGLASS W. MONTGOMERY, M. D., Professor of Diseases of the Skin; Curator.
 WASHINGTON DODGE, M. D., Professor of Therapeutics.
 JOHN N. WILLIAMSON, M. D., Professor of Anatomy.
 JOHN W. ROBERTSON, A. B., M. D., Professor of Surgery and Mental Diseases.
 JOHN C. SPENCER, A. B., M. D., Professor of Histology and Pathology.
 CHAS. A. VON HOFFMANN, M. D., Adjunct to the Chair on Gynecology.
 GEO. F. SHIELS, M. D., F. R. C. S. S., Lecturer on Hygiene and Medical Jurisprudence, and Adjunct to the Chair of Surgery.
 EDW. VON ADELUNG, JR., B. S., M. D., Adjunct to the Chair of Physiology.
 THOS. BOWHILL, F. R. C. V. S., Special Lecturer on Bacteriology.
 W. F. HOPKINS, M. D., Adjunct to the Chair of Ophthalmology and Otology.
 JOHN H. BARBAT, M. D., Ph. G., Demonstrator of Anatomy.

The session of 1895-96 will begin September 1st, and continue eight months. During the term all the branches of medicine and surgery are taught, didactically and clinically. Regular clinics are held three days in the week, at the City and County Hospital, Potrero avenue (450 beds), where the professors of practical chairs have charge of wards, and possess every advantage for the instruction of students. There is also an active clinic conducted three times a week at the College Dispensary, where large numbers of patients are examined and treated before the classes. Didactic lectures are given daily by the Professors, and evening recitations are held several times a week.

The dissecting-room is open throughout the entire year. Material is abundant and costs but little.

It will thus be seen that the course of instruction, which extends through eight months of the year, aims at the development of practical physicians and surgeons. The great advantages possessed by the Medical Department of the State University enable the Regents and Faculty to commend it in an especial manner to those seeking a complete and systematic knowledge of the medical profession. The facilities for bed-side study have been largely increased of late, and the student will find opportunities at his command which, for comprehensiveness, are nowhere to be surpassed.

FOUR YEARS' COURSE

In response to the general demand, both in and out of the profession, for a higher degree of proficiency in medical education, the Medical Department of the State University was one of the first in the United States to adopt the four years' term of study. No student can present himself for final examination until he has attended faithfully four years' regular courses of lectures and clinics. Graduates of accredited literary and scientific colleges, and those that have completed two courses in the Natural Science Course of the University of California, or an equivalent in some other recognized University, are admitted to the second course without examination.

FEEES.

Matriculation Fee (paid but once).....	\$ 5
Demonstrator's Ticket (for each of two years)	10
Fee for each Course of Lectures.....	100
Graduating Fee.....	25
