MILK INSPECTOR'S REPORT

The Board of Health Milk Inspectors, after carefully examining the various dairies in San Francisco, pronounced them all, without exception, as being in a very unsanitary condition. They then visited Marin County, and found many of the dairies little better, with the exception of "Sleepy Hollow Ranch," owned by former Supervisor Richard M. Hotaling, whose splendid condition pleased the Health Inspectors.

Both Dr. Ragan and Dr. Hassler were enthusiastic after leaving the Hotaling farm, and it was with a sigh of regret that they went from this model of a dairy to places of filth and stench conducted by neighboring farmers."

It is a well-known fact that the milk from Holstein cows excels in vitality that of every other breed of dairy cattle. Its properties are unequaled as diet for general use, for sickness, or infants, and for the aged.
