How to Find the RIGHT WORKER

When you are in need of help for your office, factory or house, you can find competent, efficient help if you will go about it the right way. Hiring people to assist you, whether in your business or in your home, is one of the most important things any business man does.

When writing your ad, remember the mental impression your Help Wanted ad conveys of the work you want done determines the kind of applicants you'll have.

Also remember there are many people watching "Help Wanted" ads in The Chronicle who are not out of a job, but are looking for better opportunities, and you have to tell THEM something definite to get them to answer your ad.
