The Final Safeguard of our Safe Deposit Vaults

We protect the patrons of our Safe Deposit Vaults against their own possible carelessness or absent-mindedness in this way:

Private rooms are always locked from the outside. No one except the attendant can enter the private room used by you until it has first been inspected to see if any papers or valuables have been left behind.

TESTED BY FIRE: Our vaults gave perfect protection to their contents even through the great conflagration of 1906.

Boxes \$4.00 a year and up.
