**FOR TELEPHONE USERS
WHO ARE HARD OF HEARING**

Important aids for the deaf have been developed by the Bell System. Those who are hard of hearing over the telephone can be provided with head sets and special amplifying equipment. Our business office will gladly explain.

"Telephone ahead"
Many commercial traveling men make
habitual use of "long distance" to no-
tify customers when they will arrive
This makes it much easier to keep to
the planned schedule of the day's mov-
ements, and prepares the prospect's mind.

Grocers, druggists, and store keepers in all lines of business are glad to take orders or answer inquiries by telephone. Reach for your telephone instead of your hat and see what a saving it will be of your time and energy.
