(No Inter-City Charge)

A special telephone has been developed by the Bell System for the aid of those with impaired hearing. Our nearest business office will gladly give further information.

You can never tell who is calling

THERE are men and women who get so engrossed in what they are doing that they let their telephones ring a minute or so before they answer.

A natural thing, sometimes, but don't you agree that friends, customers, business associates who come to you by telephone should be received at least as quickly as though they came in person?

Prompt answering shows alertness. It prevents needless crowding of your telephone entrance. A prompt answer is telephone hospitality.

You never know who it is at your telephone door; please open it promptly
