

SHORT & DIRECT ROUTE TO LONG & HAPPY TENANCIES !

For nearly a half century, Milton Meyer & Co. has been helping industries find new plant locations in California, particularly in the San Francisco Bay Area.

As the pace of industrial development in this region increases, so does the scope of our Industry-Lease Program. And so does the roster of our nationally-known clients for whom we have found the right spot, built the right plant and written the right lease.

One or two appointments have usually proved enough to iron out all details of site-selection, design and building to your order, and rental. Our wealth of experience enables you to reach decisions quickly, keep cost down, accomplish your move with maximum efficiency and satisfaction.

We invite your inquiry and will hold it in strict confidence.

Here is partial list of companies we have helped in choosing their plant sites or for whom we have had buildings constructed on a lease-back basis:

GENERAL ELECTRIC, ARMSTRONG CORK, AMPEX, APPLIED ELECTRONICS-RAYTHEON, BORG WARNER, UNION TWIST DRILL, AMERICAN BOSCH, KPIX WESTINGHOUSE, SEARS, ROEBUCK, SWIFT & CO., F. W. WOOLWORTH, LANGENDORF BAKERIES, HOLT, RINEHART & WINSTON, MONTGOMERY WARD, PACKARD BELL, W. T. GRANT, GATES RUBBER, H. K. PORTER CO., KORET OF CALIFORNIA, BOISE CASCADE, MERCEDES BENZ.

MILTON MEYER & CO.
