

The Alcoa Building

America's Most Convenient Office Building

And most distinguished in design. Its 25 stories rise in dramatic splendor from superbly landscaped Maritime Plaza in the very heart of San Francisco's financial district. Beautiful. Bountiful. Unique. The Alcoa Building provides every professional and personal amenity for its occupants. Among them: Column-free maximum office space. A 1500-car garage with access to

and from Embarcadero Freeway. Smart modern shops. Excellent eating places. Daily business facilities.

Landscaped areas for relaxation. World-famed works of art. Spectacular, protected views of The City and the Bay.

And, across pedestrian bridges, additional conveniences of Golden Gateway Center, of which the

Alcoa Building is an integral part. No business address in the entire West has more prestige than The Alcoa Building. None is more convenient.
