MORMON GULCH & TUTTLETOWN.

These two places are situated within about a half a mile of each other; Tuttletown being up-on a branch of Mormon Gulch proper. Gold was struck on mormon gulch in '48, by a company of miners, and in the summer and fall of '49, large quantities of gold was taken from it, and its limits. It was a flourishing camp in '49, and '50, but there are but few persons there at present, although it is said that those who work there still realize good wages on an average.—Tuttletown received its name from Judge Tuttle, the first county Judge of this county, who built and occupied the first cabin at that place.

There are many quarts leads at Tuttletown and in its vicinity, which have produced some very rich specimens; but owing, we believe, to the want of proper machinery, they have ceased to be worked. Doubtless when labor becomes cheaper and improved machinery can be obtained at reasonable costs, Tuttletown will again be a flourishing camp.

Mining Laws of Tuttletown.

At a meeting of the miners of Tuttletown, Tuolumne county, the following Rules and By-laws were adopted:

WHEREAS, The Congress of the United States have in their wisdom made it incumbent on the miners of the various mining districts of California to provide such laws for the protection and regulation of mining claims as to them may seem right, just and equitable for the greatest number. *Therefore*, be it enacted by the miners of Jackson Flat and Tuttletown to-wit:

SEC. 1. That any person or persons entitled by the Laws of the United States to hold a mining claim may either by pre-emption or purchase hold 100 feet square of ground.

SEC. 2. No person or persons shall, in locating a claim, if he or they take a less width than one hundred feet extend the limits beyond 100 feet in length.

SEC. 3. Any person or persons claiming ground either by pre-emption or purchace, who does not within six days from the time such claim is in workable order, either work or cause the same to be worked, shall forfeit his or their right to the same.

SEC. 4. Claims shall be signalized by stakes firmly set in the ground, with notices, or by notices placed upon trees or other objects sufficiently firm.

SEC. 5. Any person or persons who shall be convicted of destroying or pulling down any notice or stake, or both, which are the signs of a legitimate claim, shall be liable to a fine of not less than $5, nor more than $50, as in the discretion of the court or jury may seem proper.

SEC. 6. Where more than one person are associated in any claim, the name of each individual of said company shall be legibly written upon the notice, and no more ground shall be deemed taken than there are names upon the notice.
