

**THE PALACE HOTEL,**

Occupying an entire block in the centre of San Francisco, was designed, when built, to be the Model Hotel of the World, and it is universally so declared by the travelling public. It has double the Accommodations of any other Hotel in the City. It is thoroughly Fire and Earthquake proof, has broad easy stairways and five Elevators. Every room is extra large, light and airy. The system of ventilation is perfect, combining flue from fire-place, inlet flue for fresh air from outside, and outlet flue to the roof. A bath and closet adjoin every room.

**Restaurant in the Hotel.**

The Central Court with its immense glass roof, the broad balconies around it on every story, its carriage way and its tropical plants, is an attractive feature, one hitherto unknown in American Hotels.

*All Rooms are Easy of Access from broad, light Corridors leading from the glass-covered Court in the centre of the Building.*

**Palace Hotel, San Francisco,**
