

H. P. Rigid Rail  
Tracks

# To Best Serve You

---H. P. Rigid Rail Tracks  
for Fordsons  
---H. P. "40" Tractors

For the farmer with small acreage, a Fordson equipped with H. P. Rigid Rail Tracks is the best tractor to choose. H. P. Rigid Rail Tracks convert the Fordson into a crawler type tractor equal in power to tractors costing several times their price.

For the owner of larger holdings, there's the H. P. "40" Tractor, designed by C. A. Henneuse and built by the Hadfield-Penfield Steel Co. of Bucyrus, Ohio. It is the latest development in tractor design, embodying a number of exclusive features.

To best serve you is our business.
