

It's easy to find "Where to buy it"

To find the business concern you have in mind—

First, locate the heading descriptive of the general type of business. This will be found in its regular alphabetical order.

Then, locate the desired concern and telephone number by examining the listings under the heading.

To find where to buy the article or service you want—

First, locate the headings indexed by the name of the article or service you wish.

Then, select from the listings the dealer with whom you wish to do business.

Under these headings may also be found sub-headings descriptive of particular kinds of articles or services and the dealers in a position to serve you. The advertisements provide you with more complete buying information.

When you want to find a dealer handling a trade-marked or branded article—

Look for the heading which bears the same name as the article you wish.
