**FOR THE HARD OF HEARING**

A special telephone has been developed by the Bell System for the aid of those with impaired hearing.

Installed in the home or office, it amplifies the volume of sound, making it possible, in many instances, for those who experience difficulty in hearing to hear more easily.

Our nearest business office will gladly give further information. Or just call our business office.

THE PACIFIC TELEPHONE AND TELEGRAPH CO

## Have an extension telephone at your bedside

SOMETIMES an extension telephone is ordered installed at a bedside while someone is ill. It is a well-recognized fact that, long after the doctor and nurse have been dismissed, long after the patient has become well, the bedside telephone remains. A single day's trial will make any bedside telephone permanent!

The immense convenience, the ease of answering or calling in the night, the advantage of complete privacy, the saving of steps—these are the reasons.

Your home should have such telephone convenience now. The cost is only a few cents a day.

Call the telephone company's Business Office and say "I want a bedside extension telephone before another day has passed."

*Like having  
your telephone  
brought to you*
