Others also value your Telephone

You are likely to think of your telephone simply as a means of transmitting to others your own thoughts and desires.

But your telephone is of equal importance to those who wish to get in touch with you. "Have dinner with us tomorrow." "Come quickly! You are needed." "That contract is entirely satisfactory."

It may be a call from across the street, across the continent, across the sea. As you receive this message, you share in the benefits of the great chain of communication which links up the activities of the world.
