 You are overlooking an easy means of buying if you do not consult the Classified Telephone Directory.

You can never tell  
 who is calling

There are men and women who get so engrossed in what they are doing that they let their telephones ring a minute or so before they answer.

A natural thing, sometimes, but don't you agree that friends, customers, business associates who come to you by telephone should be received at least as quickly as though they came in person?

Prompt answering shows alertness. It prevents needless crowding of your telephone entrance. A prompt answer is telephone hospitality.

You never know who it is at your telephone door; please open it promptly
