A NEW MATERIAL

### PERMANITE

(Pat. No. 1,927,047)

An entirely new type of material which has been made into roof slabs. Thick fire-retardant and highly insulating because of their cellular construction.

AS SHE TYPES, COPIES APPEAR AT MANY POINTS AT ONCE

A typist in one city, on a Teletypewriter, records an order, letter, bill or memorandum.

As her fingers touch the keys of her instrument, those exact letters appear simultaneously in other offices in the same building or in distant cities.

Such is the Teletypewriter, a new aid to modern business.

Office, plant, warehouse, all can be tied together by the Teletypewriter.

THE PACIFIC TELEPHONE AND TELEGRAPH CO.

### Protect Loved Ones

Fortunately, the moment rarely comes to most folks when the doctor, the fireman, the police are critically needed . . . needed in seconds. Yet what a comfort it is to know that the telephone's there!

Your telephone has many happy, human uses. When the family is scattered by business, school or vacation. When friends move to other cities. When there are babies, birthdays or anniversaries. Then a friendly, personal greeting means so much . . . and costs so little.
