

SOME OF THE MANY AVAILABLE  
**Telephone**  
**SERVICES AND FACILITIES**

**TELEPHONE SERVICE...**

Will put some loved one in touch with other households, with the stores, the doctor, with friends far or near. Why not Telephone Service as somebody's birthday gift?

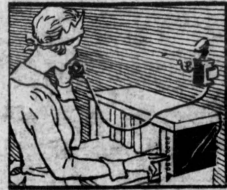

**EXTENSION BELLS...**

Useful in preventing lost calls. Located outside the house, for example, will signal the person working in the yard or garden. A switch, if desired, cuts off extension bell when not required.

**EXTENSION TELEPHONE...**

In the bedroom, kitchen, living room or basement will save many needless steps. Calls may be placed and answered over the extension. The instrument pictured is a hang-up handset.

**JUST PUSH A BUTTON...**

Key Boxes, devices for picking up calls on additional central office lines, holding while another call is answered, or intercommunicating throughout the house.

**"DEAF" SET...**

This attachment to the regular telephone will facilitate hearing. The incoming voice can be "tuned up" to the desired volume by simply turning the dial of the amplifier.

**ADDITIONAL LISTINGS...**

For the growing-up son or daughter, for the relative or friend who lives under your roof,—what nicer thought than a separate listing in the Telephone Book?

*We will be glad to send a representative to discuss your telephone requirements and to give you complete information on any equipment or service. There is, of course, no obligation.*
