In seven large cities on the Pacific Coast, telephone customers ask "Information" for numbers approximately 242,000 times every day. And two out of five of those requests are for numbers that are right at hand in the telephone directory. It takes hundreds of skilled operators to look up these thousands of numbers—it ties up large amounts of telephone equipment. You can help us to make this equipment go further. You can help us to serve you by calling "Information" only when you do not find the number listed in the telephone directory.

Wait a few seconds longer before you hang up after placing a call—perhaps the person you are calling is almost there and eager to answer you!

For Your Convenience...

Directories for other cities are available in the Business Offices and at attended public telephone stations.
