(Continued Next Page)

More than two out of five of the thousands of calls made to "Information" each day are for numbers which are listed in the telephone directory.

You will help us to serve you, and to conserve equipment for our vital war job, by calling "Information" only when you do not find the number listed in the telephone directory.

PLEASE LISTEN for the DIAL TONE BEFORE DIALING

That "dial tone," a steady hum, is the signal that the equipment is ready to receive a call. It corresponds to an operator's "Number, please?"

No matter how busy the day or how hard the job, telephone people are resolved to maintain that same willingness and consideration they have always sought to make a part of every contact—and there will always be time for courtesy.

Though an average of about 85 million telephone conversations per day are handled by the Bell System, each one is an individual transaction and telephone people try to treat it as such.
