We want these war calls to go through sure

and fast and we know you do, too. We can keep

on pushing through all essential calls if you will

go easy on unessential ones.

No matter how busy the day or how hard the

job, telephone people are resolved to maintain

that same willingness and consideration they

have always sought to make a part of every

contact—and there will always be time for

courtesy.

MAICO
ELECTRONIC HEARING AIDS

Midget electronic hearing aids are light weight and easy to wear. With the automatic volume control, seriously deafened persons can carry on normal conversation at 20 feet; hear even a whisper, with loud noises automatically cushioned.

The exclusive set-screw adjustment feature assures you of a personally fitted hearing aid to compensate for hearing loss where you need it, just like a prescription-fitted pair of glasses.

Maico hearing aids are produced by the company which provides 90% of America's precision hearing test instruments. Used by U. S. Army, Navy hospitals, clinics and ear physicians.

For Free Demonstration At Office or Home Phone **3-5326**
