In seven large cities on the Pacific Coast, telephone customers ask "Information" for numbers approximately 242,000 times every day. And two out of five of those requests are for numbers that are right at hand in the telephone directory. It takes hundreds of skilled operators to look up these thousands of numbers—it ties up large amounts of telephone equipment. You can help us to make this equipment go further. You can help us to serve you by calling "Information" only when you do not find the number listed in the telephone directory.

On the Long Distance calls you must make, we'll appreciate your co-operation when the operator says — "Please limit your call to 5 minutes."

When you take millions of men and put them in camps around the country, you're bound to have a lot of Long Distance telephoning. The rush is particularly heavy at night between 7 and 10—about the only time the boys have to telephone. So if you can make your Long Distance calls at other times, we'll appreciate it.
