Use of the telephone in its most effective way means speed for the user—and it helps to keep the lines clear for the calls of war production.

Suggestions:  
Have the right number.  
Dial local calls direct, rather than by dialing Operator.

*"Give  
SEVEN TO TEN  
to the  
SERVICE MEN"*

**7**HEY'RE busy during the day. A few hours each night are about the only time they have to telephone. Wouldn't seem right if a casual call of yours held up a soldier's call back home.

Best way to avoid that is to *play safe and not place any Long Distance call between 7 and 10 P.M. unless it is really urgent. Tonight and every night "give seven to ten to the service men."*

### TO BE HEARD

*c-l-e-a-r-l-y*

... please speak directly into the Telephone with your lips just clearing the mouthpiece.
