... The CHIROPRACTORS who find out through X-RAY

Dr. Geo R. Smith
Res. Ph. 3-4053

Dr. E. I. DuFrasne

You must accurately determine the cause before you
can remedy the condition, and that is what X-Ray Chiro-
practic does. It definitely locates the cause.

Our office is provided with only the most modern X-Ray
equipment, not just a fluoroscopic machine that creates an
image to be studied only when the
patient is present, but one that makes
a permanent film record of your
condition, thus enabling us not only
to make an accurate analysis but a
careful study of your progress while
under treatment.

PHONE
2-3338

The X-Ray also enables you to understand your own condition, after a simple explanation, and to make a study of your case for yourself. Years of experience are back of our chiropractic adjustments PLUS the fact that we have kept thoroughly and completely in touch with all new developments in the field of chiropractic research.

It is significant that many patients have come to us as a last resource. They have tried all the other methods of restoring their health, and it is upon our success in handling such cases that we say to you, "Do not despair until we have had the opportunity of discussing your case with you".

We assure you that you will not be accepted as a patient unless we conscientiously feel that we can actually accomplish satisfactory results. Reasonable fees and gentle treatments combine to make our adjustments an agreeable way to better health.

Dr. GEO. R. SMITH
