A store may not immediately come to the mind of a prospect when special services are desired, such as are offered by a Beauty Salon, Radio or Watch Repairing Department. Many establishments, realizing this, advertise under several classifications in the Classified Directory. Thus they direct more business their way.

Among many things that have to be set aside for "the duration" is the building of more telephone lines, more switchboards and central office equipment for us here at home.

We need your continued co-operation. We ask that only really necessary calls be made to cities and towns busy with war work.

Your understanding . . . your teamwork . . . are deeply appreciated.

It takes 12,000 telephone calls to build just one bomber. Thousands to make a jeep. The whole war program requires thousands and thousands of Long Distance calls every day—many right from this locality.

We want these war calls to go through sure and fast and we know you do, too. We can keep on pushing through all essential calls if you will go easy on un-essential ones.
